## Invitation for Bid

### Band Uniforms for South High for Community High School District 99

#### ADDENDUM 2 – Dated March 31, 2021

1. Do you need a specific number of bids? If so, the school would need to provide a copy of the uniform design documentation (sketch included) so that all bidders are fully aware of the exact design specifications. Per pages 39-42 of your bid document, there are specifications noted in the design details, thus leading one to believe that a design has already been created. If you are unable to release the specs, then no other company can equally bid on the project.

Response: The District does not need a specific number of bids. Also, the District does not have a specific design that all bidders would be required to duplicate. The District intends to allow the successful bidder to assist the District in creating an acceptable design which meets, or exceeds, the specifications and level of quality requirements reflected in the specifications.

Specifications are, in part, based on those used to produce a band uniform for the District's North Campus five years ago. For that reason, the District will consider all bids that propose an alternate material or production method that meets or exceeds those in the bid specifications.

The successful bidder will be selected based on quality of workmanship; knowledge of, and proven ability to provide design recommendations; cost to complete the uniforms; and, based on past history, the company's ability to meet the timeline proposed for delivery of all items.
